

Introducing...

the Liberty Facility Inspection App for the Apple® iPad®

Maintain high standards with consistent evaluations

The Liberty Facility Inspection App gives you an easy way to check your facilities to make sure quality standards are maintained.

With the App you can:

- ✓ Checklist Yes or No for quality control questions in the different areas of your facility.
- ✓ For each question you have the option to add a photo (using the iPad camera) and a description to further explain the situation.
- ✓ After finishing the evaluation, PDF copies — including the photographs — are emailed to your selected addresses.

Answer the inspection questions in each section.
